EXPERIENCE

Business Analyst, State of Missouri — *OA, ITSD*

NOVEMBER 2023 - PRESENT

In this role, I am responsible for the maintenance and enhancement of existing software applications. I collaborate with stakeholders to understand their needs, translate them into actionable plans, and provide the plans to developers to carry out.

Application Developer, State of Missouri — *OA, ITSD*

APRIL 2022 - NOVEMBER 2023

In this role, I am responsible for the maintenance and enhancement of our existing IT Service Manager. I collaborate with stakeholders to understand their needs, translate them into actionable plans, and deliver high-quality code solutions.

Osage National Golf Course, Osage Beach — *Customer Service*

MARCH 2021 - SEPTEMBER 2022

Provided golfers with carts, clubs, and directions for the course to run smoothly and on time. I also cleaned the carts and clubs after the round and did some facility maintenance as well.

EDUCATION

State Fair Community College, Sedalia

AUGUST 2017 - JULY 2018

The first half of the 2017 - 2018 school year I attended classes in person at the university at the Lake of the Ozarks location. The second half I attended online as I was living in Merida, Mexico.

University of Central Missouri, Warrensburg

AUGUST 2018 - MAY 2022

I attended the University of Central Missouri to study Computer Science. There I learned some base level knowledge in coding, data structures, and Operating Systems.

PROJECTS

Missionary — *Merida, Mexico*

Along with my immediate family, I lived in Merida, Mexico as a missionary for 8 months in 2018. This was sporting related mission work. We held clinics for basketball and soccer and shared our thoughts and beliefs about the Bible.

SKILLS

Technical Expertise: Possess a strong understanding of application design and functionality of front end and back-end development.

Organization and Planning:

Adept at planning, organizing, and executing projects efficiently, ensuring timely completion and successful outcomes.

Content Management and App Development:

I have learned a vast amount in the functionalities in App Development. I also am proficient in Wordpress, HTML, CSS, Javascript, and other web design tools.

Emerging Technologies:

Comfortable working with and exploring the potential of Artificial Intelligence (AI) applications.

LANGUAGES

English, over half fluent in Spanish

OTHER ACCOLADES

I have opened a small, part time business called Asbury Web Design. I help clients by virtually assisting them with Website creation, advertisement design, and SEO. I started this business in 2021.
